The Honorable John Slight

EXECUTIVE SUMMARY

Boone Speedway, Iowa

Boone Speedway is known as 'Iowa's Action Track' and is widely acknowledged as one of the raciest dirt tracks in the World. Opening in 1967 Boone Speedway hosts many different categories of racing and events. The highlight of every year is the IMCA SuperNationals with competitors from across the United States traveling to Iowa to compete in this prestigious event. Prior to the pandemic, the World of Outlaws were scheduled to run the Inaugural Hawkeye 100 at Boone Speedway in early-May, which has subsequently been postponed indefinitely.

Auto racing fans from across North America and Canada, and from around the World, travel to Iowa in their tens of thousands to enjoy the beauty and hospitality of the State, and the excitement of the races. More than 50 years of history has ensured Boone Speedway's reputation as an industry-leader in automobile competition, safety, and operational excellence.

World Racing Group / World of Outlaws

World Racing Group (WRG) is the leading dirt track motorsports sanctioning body in the World. Through its World of Outlaws and DIRTcar Racing brands WRG sanctions, organizes, and/or promotes 5,600 dirt track motorsports events every year across the

country. The World of Outlaws brand competes in front of more than a million live-event attendees every year, and this year alone has seen its events broadcast nationally on the CBS Sports Network and FOX Sports. Through its dirt-track racing brands the World Racing Group, and the World of Outlaws, the organization is acknowledged as one of the four major pillars of automobile racing in North America, the others being NASCAR, IndyCar, and NHRA.

Iowa Department of Public Health and Center of Disease Control and Prevention Guidelines

As an event organizer WRG has created a comprehensive set of Operational Procedures consistent with IDPH and CDC Guidelines for a limited-in-scope dirt-track motorsports event at Boone Speedway that will help protect the local Boone County community and Iowa State residents, as well as essential Speedway Staff, WRG Race Officials, and Participants.

The Operational Procedures have been written with consideration to all the relevant IDPH and CDC Guidelines and are mindful to slow the spread, mitigate resurgence, and prepare for the possibility of outbreaks of COVID-19, enabling Boone Speedway to operate on a most limited-basis-possible to deliver an auto racing event.

- IDPH Novel Coronavirus (COVID-19)
- CDC Social Distancing, Quarantine, and Isolation
- CDC Cleaning and Disinfection for Community Facilities
- OSHA Guidance for Preparing Workplaces for COVID-19

To this extent Boone Speedway and WRG will introduce a '**CLEAN-COVER-CONFINE**' mantra that will encourage all attendees to ensure all equipment and surfaces are consistently and thoroughly disinfected [**CLEAN**], practice good health and hygiene [**COVER**], and as much as possible stay within designated areas and with only family/team cohorts and minimize social interactions [**CONFINE**].

Seeking Permission: To Conduct a Most Limited Basis Auto Racing Event

Boone Speedway, in conjunction with WRG, is seeking permission to conduct a most-limited-basis possible World of Outlaws Late Model race on Friday, May 15. The "Behind Closed Doors" event will be conducted with the safest minimum possible attendees while

observing IDPH and CDC Guidelines and policies at all times. The attendees will be delineated into three groups:

- Boone Speedway Essential Staff
 - Facility Management, Fire & Safety, Security
- World of Outlaws Racing Series Officials
 - Race & Technical Operations, TV Broadcast Engineers
- Participants and Race Teams

There will be no spectators at the event

If permission is granted to conduct this “Behind Closed Doors” auto race both Boone Speedway and WRG will need approximately one week to mobilize their respective resources to safely conduct a successful event.

State of Industry

Prior to the onset of the COVID-19 pandemic automobile racing was enjoying a boom period with attendances across all forms of motorsports enjoying an upward trajectory.

It is neither Boone Speedway’s nor WRG’s desire to be the ‘First’ to return to racing in response to commercial pressures, but rather to be the ‘Best’ in demonstrating the use of best practices to assist sporting organizations generally, the motor racing community specifically, as well as to city, county, and State government officials around the country.

As States across the country begin to ease restrictions on businesses and the general public, in the coming weeks it is our belief that all the major motorsports organizations in North America will tentatively return to competition with “Behind Closed Doors” events.

Why this is good for State of Iowa

The auto racing industry in Iowa is extremely robust, supporting the State economy through a variety of motor racing industry-related businesses, from racing facilities to race-car and related-equipment builders and constructors to full-time auto racing teams. There are 52 auto racing venues in Iowa, 42 of which host dirt-track racing events.

- More than 1,000 events staged annually
- More than 5,500 competitors
- More than 1.1-million spectators attended auto racing events in Iowa in 2019

- Annually more than 25,000 people – a mixture of full-time and part-time - are employed by auto racing venues in Iowa

Boone Speedway's leadership position within dirt track racing nationally and internationally, and in the State of Iowa specifically, will provide a pathway for all racetracks to safely return to operation in the coming weeks and months. It is our hope that with a showcase success at Boone Speedway the World of Outlaws could continue to make progress in its return to racing across the country and potentially at additional venues in Iowa as well.

In Conclusion

Nationally, there are 1,226 auto racing tracks in North America, 610 of which are dirt track racing venues; the operators and managers of these tracks will be closely observing what happens at Boone Speedway in the coming weeks and taking their cues for how to act and safely return to competition. The "Behind Closed Doors" event on May 15 will be televised live across North America and around the World via the DIRTVision streaming platform and will be viewed by hundreds of thousands of auto racing fans and motorsports industry professionals across multiple social media platforms. As potentially one of the first "live" nationally-renowned auto racing series to return to competition the eyes and ears of the world will be on Boone Speedway to witness the first sounds of engines roaring, indicating Iowa, and North America, is on track – literally and figuratively – to returning to normal.
