Important Rules & Procedures

AMB/MyLaps (red) Transponder must be used at all times and One-Way Driver Radio (454.0000) must be used at all times. Driver one-way radios and AMB scoring transponder rentals are available.

Order of Events, Tire Rules, and Lineups will be posted at the designated Lineup Boards.

Race Procedures: 1. All drivers will draw each day.
2. Time Trials are three lap “1/2 of group” Qualifying.
3. Three position Time Trial grace.
4. Heats will be within Time Trial group.
5. Heat winner will redraw to establish Feature event start position.
6. Remaining cars will be staggered in the Feature event, LCS in heat finish order.

All original starts will be side-by-side with the leader starting the race. Restarts will be DIRTcar Double File except for the last five (5) laps of the Feature.

Cars out of line or jumping a start will result in a caution and being penalized one (1) row.

A yellow flag means your wheels aren’t turning.

If a car spins and creates a caution, you make contact and stop, you are also part of the caution.

If you spin to avoid, you will get your spot back. If you spin and it creates a caution, but you keep going, you will blend back in the lineup.

Hitting cars under caution or after a checkered will result in being parked for the balance of the event. If it is a multi-day show, you will be parked for the weekend.

Crew members are not allowed on the track during racing action. It will result in a DQ for that race.

Procedures and Penalties will be enforced as outlined in the 2021 DIRTcar General Rules.

All transponders must be turned in after the event. For multi-day shows, they may be turned in on the final night.

If you fail to return a transponder, you will not receive a check until it is returned or paid for.

Payout will be after the feature or mailed within five (5) business days following the event.

No tires to be left at the track. **ALL TIRES MUST GO HOME WITH YOU.**
